Dear Colleague,

I would like to introduce you to an exciting new seminar for teenagers and young people, called **“The True Love Thing to Do”**. It’s a 2 ½ hour marriage preparation, abstinence and character education seminar that’s easy to do and doesn’t require any high tech equipment or trained moderators. The curriculum is available for online viewing at <http://worldcommunity.com/tl>.

In the words of two seminar participants:

“I thought it was an awesome, awesome curriculum.

It was a good message, especially for teens like me, who don't know how important purity is.

It should be spread throughout the nation.”

~ Ms. Whitney Edwards ~ age 15 ~ High School student

“Before going to the *True Love Thing to Do* seminar, I had already had a belief in abstinence.

After going to the seminar, my beliefs were reinforced and I had a better background to share my beliefs with my peers.

It was very enjoyable, with its discussion type format. I was given many facts about abstinence.”

~ Ms. Kay Peemoeller ~ age 18 ~ College student, University of Virginia

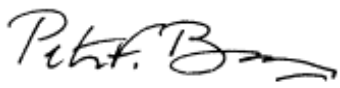

I invite you to purchase the curriculum for your school, church or organization, to help serve the teenagers in your area. The curriculum retails for \$14.95 and wholesales for \$9 -- so you can make a \$6 profit by asking the parents of teenagers to donate the retail amount to your organization. Of course, you can also sell the curriculum in your bookstore (as well as hosting seminars). The curriculum is **very** easy to use, and can be used by one parent with one teenager, or by large groups. It’s completely ‘low-tech’ and user-friendly, and contains instructions on how to use the material.

You can purchase at wholesale in quantities of 25, 50, or a box of 100, or other quantities. See the order form for more details and shipping information. We invite you to conveniently order and pay online with a credit card at the above web address, or send a check with your order form.

We’ve created .pdf (Adobe Acrobat) files of the curriculum (front and back cover and inside text) for your convenience and review. Most computers nowadays are setup to view .pdf files by double clicking on them -- if you're not, you can download a free Adobe Acrobat Viewer from <http://adobe.com>. **Note that for our next printing, the curriculum will have a full-color cover.**

We appreciate your interest in the *True Love Thing to Do*. Teenagers today **need** ‘heartistic tools’ that they can use to maintain their purity. We believe that the *True Love Thing to Do* curriculum will provide them with tremendous benefit.

Very truly yours,

Peter Falkenberg Brown
